**Program Description**

The Common Core calls for students to develop literacy in all content areas. This institute develops teachers’ theatre literacy and skills aligned with the California K-8 Theatre Content Standards and Common Core Literacy in Technical Subjects. Through engaging directly in the art of theatre, teachers uncover the content, literacy, artistic processes, and develop skills to teach theatre. Teachers discover the connections and support theatre education provides to the English Language Arts Common Core and English Language Development Standards.

Participating teachers create and implement a standards-based theatre unit for their classroom while reigniting the creativity of their students and themselves!
