

Development with Optional Action Research

Results: Academic Language and Literacy Instruction (RALLI) K-6, a CRLP professional development institute, provides teachers and administrators with the tools and skills necessary to analyze the academic and literacy demands of complex literary and informational text. The optional Action Research component deepens content knowledge and facilitates effective implementation of RALLI.

- Be able to support the implementation of the Common Core State Standards by understanding what it means to be a literate person in the 21st century and the level of reading, writing, speaking, and thinking required to prepare students for college.
- Learn strategies for differentiation to facilitate access for English learners across levels of English language proficiency.
- Learn to implement instructional strategies and routines to help make complex academic text more accessible to all students, increase students' use of academic language, and improve motivation and engagement.
- Learn how to effectively integrate academic language and literacy instruction throughout the instructional day using using a wide range of literature and complex informational text.

"My students were able to improve in many areas of their reading comprehension. They were exposed to high level vocabulary, and I felt that I was able to provide them with several opportunities to engage in high level conversations with their peers. With the strategies I learned at RALLI, I hope to continue preparing them to be competent in the 21st century."

-2012 RALLI Participant

"Attending the (RALLI) training has given me the opportunity to work side-by-side with my teachers and has provided me with the tools necessary to support them. It is imperative that administrators attend staff development trainings with their staff."

-2012 RALLI Administrator Participant
