Program Description
California’s new standards call for students to develop literacy in all content areas. This program develops teachers’ visual arts literacy and painting skills aligned with the California K-8 Visual Arts Content Standards and Common Core Literacy in Technical Subjects. Through engaging directly in the visual arts, teachers uncover the content, literacy, artistic processes, and develop skills to begin to support student literacy in the visual arts. Teachers discover the connections and support visual arts education provides to the English Language Arts Common Core and English Language Development Standards.

Participating teachers create and implement a standards-based visual arts unit for their classroom while re-igniting the creativity of their students and themselves!

If you have any questions about the program, application process, dates, etc., please contact tlcotner@csuchico.edu
